**YOUR
WORKING
MACHINE**

VALTRA ENGINEERED, DEALER FIT ACCESSORIES

Valtra genuine accessories are engineered to operate in the extreme hard working Nordic environment for sustained periods, ensuring durability you can count on in any conditions.

- Genuine factory engineered and approved parts
- Homologation tested and legislation compliant
- Superior high quality and finish
- AGCO Parts 12 month warranty as standard on all genuine accessories *

The accessories from AGCO Parts offer the same high levels of durability and performance expected of the Valtra machine. The comprehensive range includes front weights and rear hitches, external lighting and technology solutions such as Auto-Guide™ 3000, all covered by AGCO Parts 12 month warranty*.

EXTENDED WARRANTY – UP TO 5 YEARS ACCESSORIES COVER*

Valtra accessories fitted to a machine with extended warranty within the first 12 months of registration by the dealer, are covered for the period of warranty remaining.

**Terms and conditions apply and are available on request. Exclusions may apply.*

ACCESSORY HIGHLIGHTS

- Fenders and Mudguards
- Front Linkage
- Front PTO
- Rear Hitches
- Weights

WEIGHTS

An integral part of setting up the machine is ensuring the correct ballast is used. AGCO Parts offer a range of genuine weight solutions from traditional cast-iron and concrete construction to the latest composite magnetite materials. Magnetite is denser than concrete and therefore enables a significant reduction in size compared to concrete to deliver the same ballast.

FRONT LINKAGE AND PTO

Valtra engineered and approved fully integrated front linkage and PTO provide the assurance that all components meet all tolerance and performance specifications and won't let you down.

REAR HITCHES

There is a wide range of hitch solutions available engineered to match the hard working performance of your Valtra machine.

FENDERS AND MUDGUARDS

Replace or upgrade your tractor with genuine Valtra pivoting front mudguards. Designed to ensure wheel clearance conformity and durability.

ACCESSORY HIGHLIGHTS

- Air Conditioning
- Auxiliary Lighting
- Heated Door Mirrors
- Safety Equipment

AUXILIARY LIGHTING

Rotating beacons and work lamps to ensure you can be seen as well as see the job at hand.

OPERATOR ENVIRONMENT

From radio and camera system installations to seat upgrades and heated door mirrors.

SAFETY EQUIPMENT

Operator safety is paramount. Be prepared for any eventuality by installing a first aid kit, fire extinguisher and warning triangle, all available through AGCO Parts.

TECHNOLOGY SOLUTIONS SUMMARY

Around 80% of farming costs are variables costs such as fuel, fertilizer, seeding material etc.

By using guidance you can improve productivity and reduce these costs.

AUTO-GUIDANCE KEY FEATURES INCLUDE:

- Auto-Guide™ 3000 – Automatic steering system
- Maximum use of implement width by reducing overlap
- Optimal spacing of plant/seeding material
- Optimal performance in all light conditions
- A range of upgradable accuracy from a sub metre 30cm via free EGNOS to the highly accurate subscription based RTK solutions using radio or GSM corrections with a 2cm accuracy.

Standard (Free)	EGNOS	+/- 30cm
Subscription	VBS	+/- 20cm
Subscription	HP	+/- 5cm
Subscription	RTK	+/- 2cm
Base station	HiPer Ag RTK	+/-2cm
