

FENDT

Cargo Front Loader Order Guide Summary

Fendt Cargo

The Fendt Cargo is the only front loader specifically designed for the Fendt range. Engineered and manufactured by the same experienced hands that produce the Fendt tractor, it offers an unrivalled package of accessibility, performance and reliability. Whether it's for moving silage or earth, grain or hay, the Fendt Cargo is the ultimate front loader.

Power and Refinement

The Fendt Cargo (standard on the CargoProfi and stocked beams) is available with an integral damping system to ensure stability whilst carrying a load and working to eliminate vibrations ensuring superior ride comfort for the operator in the saddle.

Fendt CargoProfi The intelligent front loader.

The Fendt CargoProfi features an integrated weighing system and programmable work parameters with previous setting recall, all controlled and displayed through the Varioterminal. This enables the operator to restrict beam height if working in a confined space or monitor the weight not only of each load lifted but also the total weight of a complete job.

Fendt Cargo R

There is the possibility to upgrade with a Cargo R mounting kit on the Fendt 800/900. Developed by Fendt engineering and only available through AGCO Parts. This enables a 4X/85 to be installed on the rear of the tractor, increasing further the machine's versatility with a loading height of up to 5.05 meters and lift capacity of up to 3 tonnes.

Support in the field

Your Fendt Cargo and CargoProfi comes with 12 months AGCO Parts warranty as standard. If the loader is installed on a Fendt tractor with Fendt Care Extended Warranty within the first year of registration by your dealer, the loader is also covered, up to 5 years.'

Why Buy?

THE ULTIMATE FRONT LOADER FOR YOUR FENDT

- Designed, engineered and manufactured in Marktoberdorf, Germany by Fendt
- Forms an integral part of the machine when installed
- High-strength torsion-resistant steel arms for a long working life
- 12 months AGCO Parts warranty
- Up to 5 years extended warranty with Fendt Services

KEY HIGHLIGHTS

- Offers unrivalled access to all tractor and loader maintenance points without needing to remove the beam
- Loading height of up to 5.05 meters and lift capacity of up to 3 tonnes
- Refined parallel lift thanks to the Fendt Cargo Z-bar linkage design
- Superior installation packaging – from cabin controls to the protection of hydraulic components and sensors

FENDT CARGO COMPACT 4X/75

- Sits closer to the cab, increasing tractor stability and maneuverability
- All service points are still accessible (note: front windscreen cannot be opened with this installation)

FENDT CARGOPROFI - THE INTELLIGENT FRONT LOADER

- Controls integrated in Varioterminal
- Ability to limit lifting height and tilt angle of beam
- Memo function - save arm and attachment position
- Weighing function - enabling the recording of loads and display on the Varioterminal
- Bucket shaking function

The settings for the CargoProfi are adjusted easily and intuitively with the Varioterminal.

Front loader with damping system:

Gas pressure reservoirs act as shock absorbers and prevent vibrations from being transmitted to the tractor body. The integral damping system (1), together with front axle suspension (2) and cab suspension (3), ensures superior ride comfort (optional).

Range applicability

Beam	Fendt Cargo	Fendt CargoProfi	Cargo R	Application overview*
3X/65	■			Fendt 200/300
3X/70	■			Fendt 300
4X/75	■	■		Fendt 300/400/500 (CargoProfi 300 S4 only)
4X/80	■	■		Fendt 400/500 (CargoProfi 500 only)
4X/85	■		■	Fendt Cargo - Only Fendt 700 with 28" front tyres Cargo R - Only on Fendt 800/900
5X/85	■	■		Fendt 700/800
5X/90	■	■		Fendt 700/800

**Exclusions may apply*

With a range of seven loader models and over a hundred beam specifications to choose from including standard Cargo and CargoProfi, there is a Fendt front loader for any task. Included in the range are six selected Fendt front loader specifications and installation parts for key machines, all with 3rd Hydraulic Service, Multi-Coupling and Damping, that are stocked and ready for dispatch. Every available beam specification has its own part number for ease of ordering.

REAR BALLAST

To optimise the performance of your Fendt Cargo, it is important to ensure your machine is set up correctly. Ask about the range of genuine monoblock and rear wheel weights available.

UP TO 5 YEARS EXTENDED WARRANTY

The Fendt Cargo is supported by the reassurance of AGCO Parts 12 month warranty, however with Fendt Services, as with all Genuine Accessories, the loader and installation warranty is covered for up to 5 years*

If fitted to the machine by a Fendt dealer within 12 months of first registration with Fendt Services extended warranty cover, the loader and installation parts are covered for the remainder of the warranty up to 5 years*

**Terms and conditions apply*
