

Accessories and components to improve the performance and efficiency of your HayBoss G2 and HayBoss systems

INCREASE YOUR **HAY PROFIT**

HayBoss™
G2

INDIVIDUAL BALE IDENTIFICATION SYSTEM HAYBOSS G2 TAGGER

Bale chamber-mounted tagging device that permanently attaches a Radio Frequency Identification (RFID) tag to every bale by securely fastening it to the twine. The tags contain a microchip that contains the information specific to that bale- high moisture, average moisture, amount of preservative used, field name, date and time, and other details.

HayBoss G2 Tagger Only	
Part No.	Description
HT850	Compatible with all 2009 and newer HayBoss G2 systems
HT852	G2 Tagger bundle includes, HT850 (G2 Tagger), HT860 (handheld scanner), and HTR-0851A (RFID tags - 1 roll)

HAND-HELD BALE SCANNER

Scan and process the tags that the HayBoss G2 Tagger puts on every bale and download the information via USB to your computer. Also comes with loader/tractor mounted antenna for scanning and processing on the go.

Part No.	Description
HT860	For use with all 2009 and newer HayBoss G2 Taggers

RFID TAGS

The tags have a microchip in the tag that contains all the specific information for that bale that are read by the Scanner. Ready for use with the G2 Tagger, the tags come in rolls of 850.

Part No.	Description
HT12-0851A	1 roll of tags
HT12-0853A	3 rolls of tags
HT12-0856A	6 rolls of tags

DYE SPRAYER MARKING KIT

The Dye Sprayer kit sprays a red, food-grade dye on the exact spot of the bale when the high moisture alarm goes off, giving you a quick and easy reference when sorting, feeding, or stacking bales.

Part No.	Description
HT0840	Kit for use with all 2009 and newer HayBoss G2 systems
HT0800	Bottle of dye mix (1-gram concentrate makes 3 gallons)

FLOOR MOUNTED PAUSE SWITCH

A convenient way to stop and start your application system is now available with the model 475 floor mounted pause switch.

Part No.	Description
HT475	For all 2005 and newer HayBoss G2 and HayBoss Monitoring and Application Systems

EPA Registered

AGCO BUFFERED ACID HAY PRESERVATIVE

Has the strength to preserve:

- Large Square Bales
- Large Round Bales
- Conventional Square Bales
- Works on all types of hay including alfalfa, timothy & grasses
- Reduce leaf shatter while maintaining green color and fresh hay smell
- Propionic based and buffered with citric acid to prevent spoilage when baling at higher moistures
- PH of 6 will not corrode baling equipment
