

GENUIDE FRONT LOADER GUIDE SUMMARY

SPECIALISE IN EVERYTHING. COMPROMISE ON NOTHING.

Previously only accessible as a factory option, the Valtra Front Loader is now available as a Dealer fit installation from ACCO Parts, enabling you to upgrade an existing machine to factory specifications.

Now you can equip your tractor without compromise.

TESTED IN EXTREME CONDITIONS. LIKE YOU.

Valtra machines are engineered and tested in the extreme Nordic climate. Built to be versatile and superior in strength, it's important when selecting a front loader that it can match Valtra's high levels of performance.

The Valtra Front Loader is the genuine factory approved beam for your tractor.

INNER Strength.

Valtra Front Loader beams are designed to offer optimum torsional strength and durability and are supported by a robust, strong sub-frame, providing you with reliability you can count on.

Whether it is moving pallets, carrying feed to livestock or unloading grain, you can always depend on the Valtra Front Loader.

WITH THE RIGHT Tool for the Job, it takes Less work to Do more.

There are four models available to suit your machine and capacity requirements. Each loader beam is specified with 3rd service, damping and fitted with a euro stock as standard.

The beams can either be installed on existing machines with compatible mountings or if required, Valtra installation kits are also available for the N and T Series for both the 3rd and 4th generation.

LIGHTEN The Load.

Upgrade your loader with a heavy duty Loader Lighting Kit, ensuring visibility of the load. This is especially useful when working with pallet forks in poor light conditions. This can be retro fitted by the dealer.

REAR BALLAST.

To ensure optimum performance it is important your machine is set up correctly.

When ordering your Valtra Front Loader, don't forget about the range of Genuine monoblock and rear wheel weights available through AGCO Parts.

UP TO 5 YEARS Extended Warranty.

The Valtra Front Loader is supported by the reassurance of AGCO Parts 12 month warranty, however with Valtra Premium Care, as with all Genuine Accessories, the loader and installation warranty is covered for up to 5 years*.

If fitted to the machine by a Valtra franchise dealer within 12 months of first registration with Valtra Premium Care extended warranty cover, the loader and installation parts are covered for the remainder of the warranty up to 5 years*. *Terms and Conditions apply

VALTRA PREMIUM CARE CUSTOM MADE SUPPORT

STOCKED Loader Beams And Options.

AGCO Parts have the following range of Valtra Front Loaders and upgrades. These are delivered direct from the factory in Suolahti to your dealer for installation.

Other beams and options are available on request.
