## Welcome to the AGCO Parts Workshop Products Catalog!

Whether you're out in the field, hard at work in the shop or crossing off that list around the house, you can count on AGCO Parts to keep you stocked and prepared, all year long.

AGCO Parts is dedicated to keeping our dealers and our customers equipped with the necessary products and services they need to succeed. Whether you're a farmer, groundskeeper or homeowner, you know you can count on Genuine AGCO Parts to improve your uptime.

Thank you for your business! -- AGCO Parts

# AGCO Workshop Products

## The AGCO POD Program: It's More Than Just A Cabinet!

With Genuine AGCO Parts stocked at your location, you'll spend more time in the field and less time at the counter. The AGCO POD Customer Program provides five great benefits to help you improve your operational efficiency both at your shop and in the field.

### Stay Organized

An AGCO POD Cabinet will look great in your shop, but it's best value is keeping your parts organized and right where you need them.

### Save Money

Ask your AGCO Parts Professional how you can save money by stocking critical Parts On Demand. Coupled with fewer trips to the dealership, you'll experience all around savings.

### Less Downtime

Stocking parts on site keeps downtime to a minimum with Parts On Demand. Less downtime means more money in your pocket.

### Less Waiting

Your AGCO Dealer can maintain a customized parts list for your operation, which makes stocking and re-ordering easy. Order off your list when it is convenient for you, and stay one step ahead of each season with your cabinet fully stocked.

### Showcase your Brand

With customizable colors and logos, your cabinet will proudly display your brand loyalty, while at the same time it is designed with your shop in mind, made in the USA, and fully welded and assembled to get to work right when you receive it.

Ask your AGCO Dealer how you can put the Parts On Demand program to work for your operation!

CARGO CONTROL

## EPDM Rubber Tie-Down Straps

American-made EPDM rubber straps retain good flexibility and return to their original length after each use. EPDM rubber is a special blend of rubber and synthetic materials which allows for outstanding resistance to ozone deterioration and to extreme temperatures.

## Natural Rubber Adjustable Tie-Down Straps

Natural Rubber Tarp Straps with zinc-plated hooks are strong and durable for light duty applications. Adjustable; high elastic holding power; will not scratch.

GREASE GUNS & ACCESSORIES

## Grease Gun Accessories

AGCO offers a complete line of accessories to keep your grease guns operating at peak efficiency. From holders to keep guns stored safely, to all of the attachments and fittings needed to get the job done.

### Grease Gun Holder

- Snap action clamp
- Heavy-gauge steel construction
- Zinc-plated finish.

G2007

### Heavy-Duty Grease Gun Holder

- Firmly secures any standard-size tube-style grease gun
- Mount as needed using four 1/4" carriage bolts

G2008

### 18 Gauge Grease Injection Needle

Use to lubricate in very tight spaces, including universal joints and sealed bearings.

G2006

### 4-Way Grease Tools

Designed for removing worn and broken grease fittings & re-tapping holes for installing new grease fittings. For straight & angled fittings.

- G2021 - Hex Size: 5/16" (7 mm) & 3/8" (9 mm). Tap Re-Threads: 1/4" - 28
- G2022 - Hex Size: 3/8" (9 mm) & 7/16" (11mm). Tap Re-Threads: 1/8" - 27

G2021

G2022

### Whip Hose Extensions

Flexible extensions for hand-operated grease guns. 1/8" NPT male threads at each end. Thermoplastic construction with zinc-plated steel ends. Allows greasing of hard to reach nipples.

- G2009 12", 3500 PSI
- G2010 18", 3500 PSI

G2009

G2010

### 4-Jaw Couplers

- G2004 Professional Coupler. Working pressure: 6,000 PSI (413 bar). 1/8" NPT
- G2005 Heavy Duty Coupler. Working pressure: 10,000 PSI (690 bar). 1/8" NPT

## AGCO Handheld Toolboxes

Complete your Tool Storage collection with a high-quality steel handheld toolbox. AGCO handheld toolboxes feature steel construction, a metal tool tray, and heavy-plated latches. Our Hip-Roof Style boxes were designed to fit the storage compartment on the new 2014 Tier 4 Final Combines from Massey Ferguson and Challenger, and measure 20" L x 7" D x 8" H. Strong enough to withstand a hard working environment, but not too heavy to weigh you down, these 7lb boxes are a perfect portable fit for your equipment, truck, or around the workshop.

## AGCO Hand Tools

When you buy AGCO hand tools, you'll know we have selected the highest quality products that provide the best value for your investment. Many of our products are Made in the USA and we haven't sacrificed quality for price. AGCO offers a growing variety of hand tools to meet the needs of the DIY'er and the professional. Our dedication to high quality products at a great price make AGCO hand tools a truly outstanding value.

### 6 1/2" Slip Joint Pliers

Two position zinc plated plier resists corrosion and has added strength and durability from its drop forged and heat treated construction. With a shear type cutter and black textured vinyl grips, these will quickly become your go-to pliers. Made in the USA.

H6262

F6262

### 10" Adjustable Water Pump Slip Joint Pliers

Drop forged and heat treated for strength and durability, this seven position adjustable plier with black textured vinyl grips features pipe wrench style teeth and Grip Tight Clip. Made in the USA.

F6263

H6263

### 12" Hi-Torque Ratcheting Driver

With 11 bit choices, this reversible ratcheting driver with up to 250 in-lbs in fastening capabilities is hard to beat. All bits are made of S2 metal and fit securely in the stainless steel holder. Storage inside the handle holds bits when not needed.

- Includes 11 Screwdriver bits:
  - 3 Phillips: #1, #2, #3
  - 4 Slotted - 5/32, 3/16, 1/4, 9/32
  - 2 Torx - T15, T20
  - 1 Sq #2
  - 1 Socket Adapter 1/4" Hex to 1/4" Dr

F6592

H6592

### Folding Pocket Utility Knife

Quick change blade requires no tools and blade folds and locks for safety. Includes 5 extra blades and an easy carry belt clip.

F6599

H6599

## Telescoping Magnetic Pick-Up Tool

Retrieve dropped parts, fasteners and tools with this powerful 5 lb. magnet with shielded sides for targeted pick-ups. Telescopes from 6-1/2" to 33" and features a comfortable textured cushion grip.

H6594

F6594

## Round Magnetic Tray

Keep small parts and fasteners from rolling away with this 5-7/8" stainless steel dish. Rubber covered magnetic base prevents scratching painted surfaces, and sticks to any ferrous metal surface.

F6001A

H6001

## 25' Tape Measure

Durable and comfortable compact case with easy to read fractional markings. Positive thumb lock.

LIFT EQUIPMENT

## Air Bottle Jacks

- Effortless air operation will greatly reduce operator fatigue and speed up the efficiency of garage work
- A compact yet powerful patented Air Turbo Motor is equipped to raise the load to the desired height efficiently, effortlessly, and safely
- A patented built-in by-pass device protects hydraulic system from over-pumping damage
- Versatile "Quick Connector" design provides for easy removal of air hose from air motor, allowing compact storage or remote operation

Part No.	Description	Minimum Height	Maximum Height	Hydraulic Lifting	Extension Screw	Base Size Length	Base Size Width	G.W.
G7063	12 Ton Air Bottle Jack	9-1/2"	18-1/2"	5-1/2"	3-1/2"	8"	6-1/2"	31 lb
G7064	20 Ton Air Bottle Jack	9-3/4"	18-3/4"	5-1/8"	3-7/8"	8-1/2"	7-1/8"	37 lb

## In Line Bottle Jacks

- Hydraulic system is protected from internal damage by a patented by-pass mechanism
- Machined and polished cylinders with die-cut threads provide non-abrasive leak-free, durable performance
- Fabricated from hard-cast steel with heat-treated critical stress areas
- Unique cross-type forged release valve assures positive load control
- A wide, rugged base provides stability and strength

## Pin Style Jack Stands (sold & used in pairs)

- Sturdy, welded steel construction
- Heavy gauge, steel frame helps prevent twisting

## 4- and 10-Ton Body Repair Kits

- Large capacity model gives you the pushing and spreading power you need to make fast and easy work of everyday repairs.
- Snap-lock design for quick, easy assembly
- Automatic pump overload system protects against damage to rams and equipment
- Heavy walled extension tubes stand up in tough applications
- Flex head features permanently molded rubber pad—interlocked to prevent separation
- Long handles provide low pumping effort
- 1/2 Ton capacity hydraulic spreader features 2" jaws and spreads from 5/8" to 3-3/4"
- 4 Ton kit comes in a blow molded plastic case
- 10 Ton Kit features a custom fitted, rugged blow molded storage case with wheels for easy movement

LUBRICATION EQUIPMENT

## Filter Wrenches

AGCO offers a complete line of filter wrenches to handle any type of filter removal. From lawn & garden equipment to the largest tractor filters, you'll find the tool you need, made from high quality materials, and packaged for easy use in the service department or for sale over the counter.

### Swivel Handle Filter Wrenches

Easily tackle hard to reach areas, with wide dimpled bands to securely grip the filter, and an easy grip vinyl handle.

G7090 - G7091 - G7092

### Truck Filter Wrench

1.5" steel band is designed to withstand the high torque requirements of heavy-duty filters. Use with 1/2" square drive tool.

G7093

### Strap Style Filter Wrench

Adjusts quickly to any spin-on filter, with a strong nylon web that won't slip. Use with 1/2" square drive tool.

G7094

### Cap Style Filter Wrenches

Designed for a tight fit and sure grip. Aluminum die-cast quality features a 3/8" drive for use with a hex or socket wrench. Sizes are ideal for many ag and automotive applications.

G7095

G7096

### Large Filter Wrench Pliers

Features heavy-duty forged construction and rubber grip handles for leverage and reach. Serrated teeth and a 17" overall length are ideal for removing filters from large equipment.

G7097

Part No.	Description	Filter Size	Case QTY
G7090	Small Filter Wrench	2 7/8" to 3 1/4" (73mm to 83mm)	1
G7091	Medium Filter Wrench	3 7/16" to 3 3/4" (87mm to 95mm)	1

## Lever Action Barrel Pump

Transfers petroleum oil (hydraulic, engine, gear, etc) from 15-, 30-, and 55-gallon drums with a 2" bung opening. Heavy-duty pump with multi-directional handle transfers approximately 3/4 pint per stroke. Not recommended for fuel and antifreeze. Features telescoping tube assembly, brass piston rings, and corrosion-resistant finish.

G2034

## Rotary Action Barrel Pump

Ryton construction with Teflon gaskets, making it ideal for aggressive chemicals. Use for acids, coolants, alkaline, gas, diesel, machine oil, water, alcohol, thinners, and petroleum-based products. Fits 5- through 55-gallon drums. Delivers 7 gallons per 100 revolutions.

G2035

## Lube Oil Dispenser Pump

Excellent for heavy oils used in transmissions and differentials. Features a lever-action dispenser pump that fits on a 5-gallon pail, and includes a 48-inch hose with nozzle.

G2038

## Grease Filler Pump

Allows customers to transfer grease from 5-gallon pails and bulk-fill their grease guns, resulting in overall customer savings. Quick, positive gun refilling with simple pumping action. Clamps to standard 5-gallon pail. Follower plate and female loading fitting included.

G2039

## Oil Cans

Steel Construction with premium powder-coated finish. 2 ball valves for large-volume delivery

## Standard Screened Funnels

Ideal for agriculture and related industries. In-spout safety screen reduces contamination, while outer ribbing design eliminates air lock. Spout length reduces spillage and over-pouring.

\*Order G2040 for an assortment of 2 of each size of screened funnel available.

## Capped Funnels

Capped funnels help fight contamination and promote a clean workshop environment. Our unique design prevents leftover fluid from dripping out. No need to wipe out with a rag before re-using.

\*Order G2033 for an assortment of 2 of each size of capped funnel available.

## Pour Spout Adapter

Screws onto quart and gallon size containers. Built-in air-intake allows for fast, efficient flow, and cap eliminates unwanted dripping. Chemical-resistant material, with an overall length of 14-3/4" and a 1" spout OD.

## Fluid Control Pans

Durable polypropylene material is excellent for containing spills and drips from machinery, vehicles, and drums.

- Drain Pan has a 4-gallon capacity with the following dimensions: 5.5" H, 17.75" Top ID, 1" Spout ID
- Drip Tray dimensions: 22" L, 22" W, 1.5" D

## AGCO All-Makes Wiper Blades

AGCO Wiper Blades are manufactured to OEM standards with a dual stainless steel spline, all natural compression molded rubber, a heavy steel frame, and riveted joints. Equipped with our EZFit Connector System, these blades will fit over 80% of all heavy duty applications in operation. Compare against Bosch Micro Edge, RainX, and Weatherbeater.

AGCO Wiper Blades are OEM spec for AGCO Equipment, and are part of the larger wiper system, including motor arms and blades, installed at the factory level. Our Wiper Blades are also an effective All-Makes solution for a wide variety of equipment. AGCO Wiper Blades fill many integral roles in the marketplace, particularly meeting the requirements of OEM windshield wiper systems for applications in agriculture, construction, trucks, buses, RVs, Marine, and more.

Have additional needs outside of our wiper blade offering? Ask your FPM for assistance in securing additional wiper system parts.

## Workshop Essentials

Look to the AGCO Workshop Essentials offering to round out the final pieces for your work space. Every shop needs certain items to function properly, and you can find those items with AGCO Parts!

### Shop Towels

TOOLBOX® Blue Shop Towels are ideal for use in the shop, garage or home. The blue color helps hide grease and grime better than white towels, allowing for longer use before being discarded. Made with 40% post-consumer recycled fibers. Use for all for all medium to heavy-duty general-purpose wiping. Blue shop towels work like cloth and are soft on your hands and face.

- G1010, G1012, G1014 are not French-labeled for resale in Canada
- AGCO Branding on G1013 includes French & Spanish labeling, and is perfect for outdoor jobs or wet work sites
- Ask your sales rep about pallet quantity savings

## Fresh Cab®

Trust the Original® Natural Rodent Repellent with your buildings, equipment, and property. Fresh Cab® features a natural botanical aroma that prevents pests from making homes in your protected areas and eliminates the odors, damage and messes caused by infestations, without traps or poisons. To use it, simply place pouches in the areas where rodents enter to feed, nest or gnaw on wiring – and it keeps them out!

Mice are dirty, destructive, disease-ridden vermin. You definitely don't want them around your home, family and pets. But killing them isn't always the answer. Traps can be dangerous. Poisons are horribly inhumane. Dead carcasses are a pain to dispose of, and there are always plenty more mice ready to take their place.

Fresh Cab® Botanical Rodent Repellent is a safe, effective way to protect your family and property. Made with a patented blend of plant fibers and essential oils, Fresh Cab® chases mice out and keeps them out – GUARANTEED or your money back! Use Fresh Cab® in the following areas:

- Farm Equipment: wiring harnesses, engine compartments & cab areas
- Homes: basements, attics, garages, under sinks & around pantries
- Property: under decks, in tool sheds, barns, trailers, campers, RVs, boats & storage units

Simply remove outer wrap and distribute pouches around any uninhabited and enclosed area where rodents tend to hide, feed or seek nesting sites. In non-infested areas, use 1 pouch for every 125 square feet - scent lasts up to 90 days. In infested areas, use 1 pouch for every 8 square feet and replace every 30 days. Length of effectiveness depends on air exchange rates and temperature. Replace pouches when scent has diminished (usually 30-90 days).

What makes Fresh Cab® different?

- FIRST to make an EFFECTIVE natural rodent repellent.
- FIRST and ONLY to meet all 50 state certifications for safety and efficacy.
- FIRST in innovation: design patent means that the scent lasts 3x longer!
- FIRST and ONLY to meet Federal EPA Standards for safety and efficacy for indoor use.
- FIRST with a 100% money back guarantee and over 99% customer satisfaction.
- FIRST in ease of use rated by National Home & Gardening Club.
- No poisons. Pet and livestock safe.

## Air Comb® Filter & Radiator Cleaners

The AGCO Air Comb is a new type of blow gun that cleans radiators, condensers, air filters, and much more in seconds. After connecting the Air Comb to your compressor, the air exits the blow gun at a 90° angle, and covers a significant surface area as it is ejected from 5 ports. The result is a thorough and efficient cleaning tool which will not damage the delicate filter media.

- Use on air filters, radiators, condensers & much more
- Flush 90° air flow
- 5x the air volume
- Accesses hard-to-reach areas
- Extends filter life

## AGCO 3-Sided Merchandising Planogram: F9200, H9200

Combining a broad assortment of products from our Grease Guns & Accessories, Shop Towel, Funnel, Glove, Cargo Control, Lubrication Equipment, and Safety programs, the 3-Sided Merchandising Planogram provides an excellent introduction into the retail environment, primarily for dealerships with limited retail space. Our Gridwall Display features 3 panels, each 2' wide and 6' tall, and taking up approximately 6sq ft of floor space.

Order F9200 for a Massey Ferguson branded kit, or H9200 for a Challenger-branded kit. Want to outfit your own Gridwall Display? Order G9900 and pick and choose your own products to outfit your display. The kit comes with 4 shelves, 3 casters for portability, 3 "Workshop Essentials" Header Cards, (10) 10" Hooks, and (40) 6" Hooks.

## AGCO Hand Center End Cap Display: F9300, H9300

The Hand Center End Cap is designed with equal parts consumption and equal parts branding in mind. Dealers can expect high turns in consumable hand cleaners and shop towels, while offering the quality of Massey Ferguson or Challenger-branded gloves. The Hand Center End Cap also allows a dealership the opportunity to display items that are consumed by their own service staff, and make sales out both the front and back door of the parts counter. Display includes heavy duty Workshop Products header card.

Order F9300 for Massey Ferguson branded gloves, or H9300 for Challenger-branded gloves.

## AGCO Lube Center End Cap Display: F9400, H9400

AGCO's Lube Center End Cap is the perfect solution for dealers who are looking for a simple entry point into the grease guns and accessories retail environment. AGCO has a complete program available to dealers, and the Lube Center end cap provides all of the parts you need to outfit your customers with manual grease guns and the accessories they consume on a regular basis. Designed in a small end cap display, the Lube Center gets you stocked with grease guns, couplers, hoses, fittings, holders, and pumps. Use the Lube Center End Cap Display to pull in more business from your regular customers, and make it easy for them to purchase more parts from your convenient location. Kit includes a high quality Lubrication Header Card.

Order F9400 for Massey Ferguson branded grease guns, or H9400 for Challenger-branded grease guns.

## AGCO Merchandising Header Cards

AGCO has a wide selection of Header Cards available to help you bring a professional look to your retail space. Increase the visibility of your workshop products, chemicals, lubricants and additional items with heavy duty, attractive signage around your gondolas or wall-mounted displays.

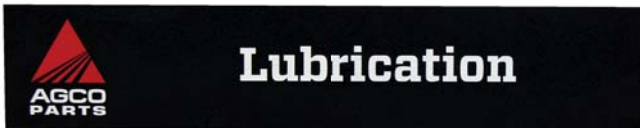

Each card is made from durable, yet flexible 2mm PVC and is designed to withstand the shelf environment. Signs can be mounted with adhesive or velcro backing, gondola clips, or simply use existing shelving prongs as a base. Dimensions are 36" L x 7" H for all headers with the exception of HD-G9900, which has dimensions of 24" L x 5" H and is designed for the G9900 Three Sided Display Rack, but can be used anywhere.
